<u>Determination of Customs Values of School Bag, Briefcase and Laptop Bag Under Section 25-A</u> <u>of the Customs Act, 1969</u>

(VALUATION RULING No. 867/2016)

No. Misc/14/2016-III Dated: 08-06-2016

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, Customs values of School Bag, Briefcase and Laptop Bags are determined as follows:-

- **2. Background of the valuation issue:** It was brought to the notice of the Directorate General (Valuation) that the School bags, briefcase and laptop bags are being imported at gross under invoiced values causing huge loss to national exchequer. Therefore, an exercise was initiated to determine the customs value of the subject goods under section 25-A of Customs Act, 1969.
- 3. Stakeholders' participation in determination of Customs values: A meeting was scheduled to be held on 24.05.2016 and 26.05.2016 with stakeholders including the representatives of importers and manufacturers but none of the stakeholders appeared to attend the subject meeting.
- Method adopted to determine Customs values: Valuation methods provided in Section 25 of the Customs Act, 1969 were duly followed and applied sequentially to address the valuation issue at hand. Transaction value method provided in Sub-Section (1) of Section 25 was found inapplicable because it is generally known to all that majority of invoices produced at import stage are manipulated/fabricated and hence the requisite information required under the law was not available to arrive at the correct transaction value, identical / similar goods value method provided in Sub-Sections (5) & (6) of Section 25 ibid were examined for applicability to determine Customs value 0f subject goods, this data provided some references, however, it was found that the same cannot be solely relied upon due to the absence of absolute demonstrable evidence of qualities, and quantities of commercial level etc, and it was also observed that importers usually provided misleading description while declaring goods as other types and varieties of similar goods to avoid the true application of valuation ruling. Required information was therefore, found insufficient and inaccurate. In line with the statutory sequential order of Section 25, this office then conducted a market inquiry using Deductive Value Method under Sub-Section (7) of the Section 25 of the Customs Act, 1969, however, it was found that the determination of Customs value could also not be based solely upon this valuation method either. Therefore, valuation method provided vide Section 25 (8) of Customs Act 1969, could not be applied as the conversion cost from constituent materials and allied expenses, at country of export were are not available, Finally, Pral database, market information and international prices through Web were examined thoroughly. All the information so gathered was analyzed for determination of Customs Value of the subject good. Consequently, the Fall Back Method as provided under Section 25(9) of the Customs Act, 1969 was applied to arrive assessable customs value of the School bags, briefcase and laptop bags in this case.
- **5. Customs values for School Bags, Briefcase and Laptop Bags:** School Bags, Briefcase and Laptop Bags *hereinafter specified* shall be assessed to duty / taxes at the following Customs Values:-
