**DETERMINATION OF CUSTOMS VALUES OF BROOM STICK UNDER SECTION 25-A
OF THE CUSTOMS ACT, 1969**

(VALUATION RULING No. 1006/2017)

No. Misc/77/2016-I

Dated: 9th January, 2017

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Broom Stick are determined as follows:-

2. Background of the Valuation Issue: This Directorate General had earlier circulated customs values for reference purposes vide Valuation Data Base letter 02 dated 18-05-2016. However, Pakistan Kiryana Merchants Association approached this Directorate General and requested to issue valuation ruling for subject goods, pointing out various issues like uniform applicability, value etc. of the Reference values circulated vide No. 2 dated 08-05-2016. Therefore, this Directorate General initiated an exercise for determination of customs values of Broom Stick.

3. Stakeholders' Participation in Determination of Customs Values: Meetings for the determination of customs values of Desiccated Coconut with stakeholders were held on 03-01-2017 which were duly attended by all the stakeholders. All the stakeholders strongly contended that the valuation notified vide the VDB is on the higher side and requested that the said Valuation Data Base may be reviewed in the light of prevailing international and local market prices. The different importers, who were of the view that the actual prices of Broom Stick were lower than determined vide VDB letter No. 2. Further, they requested to re-conduct market survey from local market for determination of customs values of Broom Stick, importers further claimed that genuineness of their point of view will be established.

4. Method Adapted to Determine Customs Values: Valuation methods provided in Section 25 of the Customs Act, 1969 were duly followed and applied sequentially to address the valuation issue at hand. Transaction value method provided in Sub-Section (1) of Section 25 was found inapplicable because the requisite information under the law was not available to arrive at the correct transaction value. Furthermore, no invoices found from inside import- containers are reported by clearance collectorates. Identical / similar goods value method provided in Sub-Sections (5) & (6) of Section 25 *ibid* were examined for applicability to determine Customs value of subject goods, this data provided some references, however, it was found that the same cannot be solely relied upon due to the absence of absolute demonstrable evidence of qualities, and quantities of commercial level etc., and also it was observed that same importers provide misleading description while declaring goods, as other types and varieties of similar goods to avoid the application of valuation ruling. Information available was, hence, found inappropriate. In line with the statutory sequential order of Section 25, this office then conducted a market inquiry using Deductive Value Method under Sub-Section (7) of the Section 25 of the Customs Act, 1969, however, it was found that the determination of Customs value could not be based solely upon this method either. Therefore, valuation method provided vide Section 25(8) of Customs Act 1969, could not be applied as the conversion cost from constituent materials and allied expenses, at country of export were are not available. Finally, Pral database, market information and international prices through Web were examined thoroughly. All the information so gathered was analyzed for determination of Customs Value of the subject good. Consequently, the Fall Back Method as provided under section 25(9) of the Customs Act, 1969 was applied to arrive at assessable customs values of Broom Stick.

5. Customs Values for Broom Stick: Broom Stick hereinafter specified shall be assessed to duty / taxes at the following Customs Values:-
