DETERMINATION OF CUSTOMS VALUES OF TOILET SOAP UNDER SECTION 25-A
OF THE CUSTOMS ACT, 1969

(VALUATION RULING NO. 1433/2019)

No. Misc/01/2008-II/2685

Dated: 5th December, 2019

In exercise of powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Toilet Soap are determined as follows:

2. Background of the Valuation Issue: The Customs Values of Toilet Soap were determined vide Valuation Ruling No. 1360/2019 dated 04-04-2019, which was challenged before the Director General of Customs Valuation under Section 25-0 of the Customs Act, 1969. The Director General vide Order in Revision No. 09/2019 dated 08-0-8-2019 held that the prices of Soap, especially for non-designer brands at serial No. 5, 6, 7, 8 and 11 of impugned valuation ruling, can appropriately be determined under Section 25(8) of the Customs Act, 1969 instead of using Section 25(7) of the Act. It was accordingly ordered to examine the matter afresh. In compliance of said Order in Revision, an exercise was initiated to re-determine values of subject items.

3. Stakeholders' participation in determination of Customs values: Meeting with stakeholders including importers, Pakistan Soap Manufacturers Association and representatives from field formations was held on 12.09.2019 in this Directorate General to discuss the current international prices of the subject goods. The importers / stakeholders were requested to submit the following documents before or during the course of stakeholders' meetings so that customs values could be determined:

- i) Invoices of imports during last three months showing customs value.
- ii) Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- iii) Copies of Contracts made / LCs opened during the last three months showing the value of item in question.
- iv) Copies of Sales Tax Invoices issued during last four months showing the difference in price (excluding duty and taxes) to substantiate their contentions.

4. Although the importers had contested the customs values determined earlier but they did not produce any corroborative documentary evidences to substantiate their submissions. The Pakistan Soap Manufacturers Association requested to revise current prices of subject goods in the light of aforementioned order in revision on the basis of prices of its main raw material i.e. Soap Noodles having values as given in ICIS scan as US\$ 640/MT for TFM 78% and above and US\$ 630/MT for TFM 72% and below. It was agreed during meeting that the value of soap noodles so found will be reduced by 15% on account of filler, and then cost of perfume, packing charges, additives and conversion charges be added to reach at Customs Values. The importers contended that price of lowest grade soap noodles may be considered for low end brand soaps. They further contended that any unnecessary increase in the values of toilet soaps would result in increase in smuggling of the item into Pakistan from various routes. The view point of all participants was heard in detail and considered to arrive at Customs values of the subject goods.

5. Method adopted to determine Customs values: Valuation methods provided in Section 25 of the Customs Act, 1969 were duly applied in their regular sequential order to arrive at customs values of subject goods. The transaction value method as provided in Sub-Section (1) of Section 25 of

the Customs Act, 1969 was found inapplicable due to wide variations of values displayed in the import data. Thereafter, identical / similar goods value method as provided in Sub-Sections (5) & (6) of Section 25 *ibid* were examined for applicability to the valuation issue in the instant case. The wide variations in declarations were observed. Information available was hence, found inappropriate. In line with the statutory sequential order of Section 25, this office conducted market inquiries under Sub-Section (7) of Section 25 of the Customs Act, 1969 from various markets. But as observed in Order in Revision No. 09/2019, this method was found inappropriate because of availability of smuggled soap in market. In line with sequential order, applicability of valuation method as given in section 25(8) was checked. As the basic raw material i.e. Soap noodles, as intimated by manufacturer, constitutes almost 97% of the Soap and the remaining 3% being perfumes and additive whose values were available in import data, this method proved appropriate. Accordingly, the values of Soap noodles of various TFM were taken from Valuation Ruling No. 1307/2018 dated 21-06-2018 and used as lower TFM for lower category brands and higher TFM for higher categories. Similarly, values of perfumes were used in aforesaid manner with cheapest perfume for lower categories and expensive perfumes for higher categories. Thereafter, additives, packing and manufacturing cost, as agreed during the meeting, were added and accordingly, values of subject goods were determined under section 25(8) of the Act.
