DETERMINATION OF CUSTOM VALUES OF DIFFERENT POLYESTER FABRICS UNDER
SECTION 25-A OF THE CUSTOMS ACT, 1969

(VALUATION RULING No. 1808/2023)

No. 07 (Group-IV)/Val.Khi/2018/882

Dated: 28th September, 2023

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, the Customs values of different polyester fabrics are determined as follows:-

2. Background of the valuation issue: Earlier, the Customs values of Different Polyester Fabrics were determined under Section 25A of the Customs Act, 1969 vide Valuation Ruling No.1301/2018 dated 04.05.2018. Representation was received from M/s. Utopia Industries (Private) Limited, for revision/re-determination of Customs values for the subject items. They contended that their imported goods are not meant for home consumption rather for EFS (Export Facilitation Scheme). According to them, application of Valuation Ruling at import stage of duty free goods poses hurdle in filing Export Goods Declaration wherein they have to mention the value addition in the assessed values of the imported goods - up to 10% in accordance with the Rule 872(a) of S.R.O 957(I)/2021- which is causing hardship for them through mis-match of values/figures. Therefore, they requested to accept their declared values as the transactional values.

3. Stakeholders' participation in determination of Customs values: In this regard, meetings with stakeholders were scheduled on 14.09.2023 and 26.09.2023. The issues pertaining to the valuation of subject goods were deliberated upon in detail in the afore-referred meeting.

4. Analysis / Exercise done to determine Customs Values: The importer-cum-exporter M/s. Utopia Industries (Private) Limited contended that the values - declared by them, along-with those provided to the Valuation Department through contracts / invoices- should be accepted. According to them, they are importing duties and taxes free raw material for value addition and subsequent export. Due to the mandatory application of Valuation Ruling No.1301/2018 dated 04-05-2018 in the WeBOC system on temporarily imported goods – not meant for home consumption in Pakistan - they are facing issues in getting export GDs processed especially when 'export value' is lesser than the minimum criteria of value addition calculated on the 'assessed value' of the input goods as per the VR. They further said that their imports being temporary in nature have no revenue impact. So, they made the case that they may be exempted from mandatory application of Valuation Ruling. In furtherance of the exercise to determine the customs values of different polyester fabrics, ninety (90) days' data along with import and export profile of the applicant was also retrieved and the same was scrutinized. As per record, M/s. Utopia does not import for manufacturing goods for local supply. At the same time, it undertakes 100% exports whose values during the last three years, i.e. 2020-21, 2021-22, 2022-23 were US\$ 48 million, US\$ 146 million and US\$ 151 million respectively.

5. Method(s) adopted to determine Customs values: Valuation methods specified in Section 25 of the Customs Act, 1969, were duly applied in sequential order to arrive at the Customs value of subject goods. The transaction value method as provided in sub-section (1) of Section 25 of the Customs Act,

1969, was found inapplicable due to absence of additional information under sub-section (2) of Section 25 of the Customs Act, 1969 required to arrive at correct transaction value. Therefore, identical / similar goods value methods as provided in Sub-Sections (5) & (6) of Section 25 ibid were examined for applicability to the valuation issue in the instant case. On the basis of available data/information collected and exercise conducted the values of Different Polyester Fabrics have been determined under sub-section (5), of Section 25 of the Customs Act, 1969.

5. Customs values for Different Polyester fabric: The Different Polyester Fabrics, hereinafter specified shall be assessed to duty/ taxes at the Customs Values as per the following Table:-
