**DETERMINATION OF CUSTOMS VALUES OF GLASS TUBING OF A KIND USED FOR
THE MANUFACTURE OF AMPOULES UNDER SECTION 25-A OF THE CUSTOMS ACT,
1969**

(VALUATION RULING NO. 1862/2024)

C. No. Misc/01/2016/V(A)/201

Dated: 1st March, 2024

In exercise of the powers conferred under Section 25A of the Customs Act, 1969, the customs values of Glass Tubing of a kind used for the manufacture of Ampoules (Clear & Amber) are determined as follows:

2. Background of the valuation issue: Earlier, the Customs values of Glass Tubing of a kind used for the manufacture of Ampoules were determined vide Valuation Ruling No. 1793/2023 dated 14.07.2023. The Valuation Ruling was challenged by the importers/stakeholders through revision petition before the Director General of Customs Valuation. Accordingly, an exercise was initiated in this Directorate General to determine Customs Values of subject goods in terms of Section 25A of the Customs Act, 1969.

3. Stakeholders' participation in determination of Customs values: Meetings were convened on 01.02.2024 & 28.02.2024 which were attended by the relevant stakeholders. The issues pertaining to the valuation of subject goods were deliberated upon in detail in the afore-referred meeting.

4. Analysis / Exercise done to determine Customs Values: The importers informed that the customs values in the existing Valuation Ruling are on a higher side, which may be rationalized considering the worldwide recession and existing freights which have decreased substantially. To evaluate the same, necessary analysis is conducted which has revealed that there is no significant change in prices of the subject goods in the international market and the ancillary charges like the freight rates and the currency exchange rates are almost the same. Moreover, there is considerable ease in regulatory controls by the banks issuing financial / banking documents; hence, leading to prospective increase in import volumes. Furthermore, the ninety (90) days' data reflect that the assessments are being finalized at the existing valuation ruling. In this regard, recent import data and market prices of the subject goods have been scrutinized in terms of Section 25 (9) of the Customs Act, 1969 to arrive at the Customs Values of subject goods.

5. Method (s) adopted to determine Customs values: Valuation methods specified in section 25 of the Customs Act, 1969, were duly applied in sequential order to arrive at the Customs value of subject goods. The transaction value method as provided in sub-section (1) of section 25 of the Customs Act, 1969, was found inapplicable because the requisite information under Section 25(2) was not available to arrive at transaction value. Therefore, identical/similar goods value methods provided in Section 25(5) & 25(6) were examined for applicability to determine customs value of subject goods. However, the same could not be relied upon due to absence of absolute demonstrable evidences of quantities and qualities, variation in declaration, variety and specifications. Information available was, hence, found inapplicable. In line with statutory sequential order of Section 25 of the Customs Act, 1969, this Directorate conducted market survey under sub-Section (7) of Section 25 of the Customs Act, 1969 but this item was not readily available in the market, therefore, this method of valuation could not be relied upon. Valuation method vide Section 25(8) of the Customs Act, 1969, was examined for valuation but the same also could not be applied due to non-availability of

conversion and processing cost of exporting country. Finally, Customs Values of Glass Tubing of a kind used for the manufacture of Ampoules have been determined under Section 25(9) of the Customs Act, 1969 on the basis of raw material prices, international prices, and suppliers' quotations.

6. Customs values of Glass Tubing of a kind used for the manufacture of Ampoules - hereinafter specified shall be assessed to duty / taxes on the Customs values given against them in the Table below:-

S. No.	Description of Goods	PCT	Proposed PCT for WEBOC	Origin	Customs Values (C&F) US\$/Kg
(1)	(2)	(3)	(4)	(5)	(6)
1	Clear Glass Tubing of a kind used for the manufacture of ampoules.	7002.3910	7002.3910.1000	China	1.0
2			7002.3910.1100	Europe	1.9
3	7002.3910.1100		China	1.2	
4	7002.3910.1300		Europe	2.0	

7. In cases, where declared values are higher than the Customs values determined in this Ruling, the assessing officers shall apply those values in terms of sub-section (1) of Section 25 of the Customs Act, 1969. In case of consignments imported by air, the assessing officers shall take into account the difference between air freight and sea freight while applying the Customs values in this Ruling.

8. Validity of this Valuation Ruling: This Ruling, containing the Customs Values for assessment of subject imported goods, shall be applicable until and unless the same is rescinded or revised by the competent authority in terms of sub-section (4) of Section 25A of the Customs Act, 1969.

9. Revision of the values determined vide this Valuation Ruling: If aggrieved, a revision petition may be filed against this ruling as provided under Section 25D of the Customs Act, 1969, within 30 days from the date of its issuance, before the Director General, Directorate General of Customs Valuation, 7th Floor, Custom House, Karachi.

10. The Collectors of Customs may kindly ensure that the values given in the Valuation Ruling, for the given description of goods, are applied by the concerning assessing officers / officials without fail. Any anomaly observed may kindly be brought to the notice of this Directorate immediately. The Customs values determined in the ruling are for the descriptions and specifications as mentioned in the aforementioned table in this Ruling. HS Codes are mentioned for illustrative purposes so that Valuation Ruling values are made accessible to the assessing officers. The assessments shall be finalized on the basis of correct classifications after fulfilling all formalities related to importability or other certifications required thereon.

11. This ruling supersedes Valuation Ruling No. 1793/2023, dated 14-07-2023.
